

The 2017 Wisconsin Crystal Growing Contest

Who can participate? All Wisconsin middle and high school students, homeschooled youths ages 11-18, and science teachers.

When? From March 1 to April 30, 2017

Why? This is an exciting scientific competition as well as a fun, hands-on lab experience. The students will learn important facts about crystals, crystallization, and substance solubility.

How do I enter? The contest is free. For rules and handbook please visit the web site of the Molecular Structure Laboratory of the University of Wisconsin-Madison Chemistry department: http://xray.chem.wisc.edu/WICGC_2017.html

Are there prizes? Yes! The prizes are books, certificates, and cash. All participants are invited to visit the UW-Madison campus and Chemistry Department for a tour and special lectures about chemistry and crystallography. Date: end of May, 2017.
